

KOCO PACKAGING MACHINERY CO.,LTD

DXD-500 liquid packaging machine

Technical parameter :

model	DXD-500
Film developed width(mm)	320/240mm
Packing capacity(ml)	200-1000ML
Production efficiency	2000bags/hour
Application voltage	380or220V
Horse power	1.5kw
Machine weight	500kg
Overall dimension	1100x1050x2000mm

The machine can be customized, and can provide supporting parts and packaging materials for a long time.

Introduction to the machine :

The packaging machine has passed the provincial appraisal and professional technical appraisal, and its performance indexes have reached the advanced level of domestic similar products, and won the gold award of patent invention. After long-term inspection, the

performance of this series of products has been highly evaluated. At present, there are a large number of users in China. They all reflect that the operation of this series of products is simple, the operation is stable, and the failure rate is low. The percentage of certified products is more than 99%. The machine is equipped with electronic cursor system, and the sealing position is accurate. Mechanical drive, stable performance, no need to connect the air compressor can be normal operation.

Supporting packaging materials :
